It is reported here that we are to have a social visit, before or during the last days of this month, of the San Jacinto, Princeton, Susquehamas, Fulton, Saratoga, fortsmooth, Falmouth, Cyane and Jamestews, to pay their respects to General José de la Concha, the Captain General of Cuba, for which I will in ne way vouch, wanting faith—having heard much since the inaugural, and seen very little fruit from the pretective policy that was to be assumed. Our good citizens are cautioned by sutherity not to be alarmed if they hear the veice of heavy ordeance from the walls of the fortifications, as we are beginning to practice to get the raw soldiery accustomed to the service, and their ears indurated to tree percusion of the "big guns." We alsolaim all desire of aid from foreign Powers, if we should be brought into collision with the United States. It would be but a small allies to sweep from the ocean every rag of Yankee canvass, and to lay the cities of your ceast under contribution, which we shall immediately do to reimburse ourselves for the troubles you may see have occasioned us.

In the meantime, our chivairy having used up all the men of Cuba, with Cuban hearts, we have commenced attacks upon the females of the land. By the same impression of the Gazeta, we are informed that a treaty has been entered into between Belgium and Spain, by which sailors belonging to either nation, who desert from the vessels to which they are attached, may be arrested in the possessions of either

country.

An order relating to passports is also published in the same number of the Gaceta, which states that His Excellency, the Captain-General, has decided ant given orders to all Governors. Lieutenant Governors and other authorities, the rules they must observe with any person that arrives at this island without a pissport, as follows:

son that arrives at this island without a passport, at follows:

First. The person must be arrested and kept in prion for a period not exceeding fifteen days, daring which it must be accordanced what is his motive in coming to the island, what property he brings with him, what is his occupation, what breisees he means to enter into, and by what means he will support himself. If the result of these inquiries be natifiactory, so that it is discovered the want of a passport was an accident, and was not omitted to conceal his variance, or any other illicit motive, he will be made to pay a first of ten dellars and then decharged; but if the information obtained proves anything to the contrary, then the authorities will k-op him in confinement until proper action is sent to the superior civil government, so that His Excellency may order his re-embarkation to the point whence he came.

Let the reader, therefore, who contemplates a visit to this over faithful island, take special care to bring a proper passport with him.

Bythe Bloom in the comspiracy case, decided that there was no case made out against fifty of the accused partition who are confined on board the Ponton, and referred the matter to the Anditor de Guerra, and the Captain Gossral to commit and decide upon it. The Auditor de Guerra approved of this decision of the Fiscal, and also agreed that all the parties should be discharged without any healtation; but when the matter came before General Coucha, whose sole duty it was to have agreed to, and signed the necessary papers for the discharge of the prisoners, he approved of the withdrawal of the charges against the ancused, but reserved to himself the right of deciding the piace where they are hereafter to dwell, and has since decided, as is understeed, that they shall be banished to the Balearic lake.

Thus, these unfortunate men, when even the Caban tribennals have decided to be innecessed for the orders (?) imputed to them, are to be banished by this act of tyrainy of General Demoha; even here, in poor down-tradden Cube, such an exercise of the "One May Power" was never before heard of.

The latter jumped from the boat, and being seen placed up by a share beat, sustained no farther inconvectence than a good ducking; but Captain Wilson. I regret to said, had sunk twice before he was taxen out of the waster; he has since been so ill with fever, that it was deem and requisite to place him at Dr. Wilson's Hespital, where, having had kind treatment and good sursing, he is hap ply now in a fair way of recover.

There are forts, &c. being erected, I am informed at Porte Princips and Villa Clare, the guns of which may be turned upon those towns.

On the let inst, written orders were received at the Pomton for the discharge of two of the prisoners conflued on beard of it, and they were accordingly discharged, with, as is oustomary here, orders to go to the decretary's office. The first one who went to this functionary was surprised and disappointed upon being told that his discharge was an error, and upon his inquiring what he was to do, he was told that the best thing for him to do was to return to the Ponton and present himself as a prisoner, which the poor fellow accordingly did: although, I must add, I have not heard of any other man having been since discharged.

On the evening of the same day, the fast sailing American schooner Fordia, Captain Curry, arrived here from Rey West, where she was chartered by the Spanish Consul, to convey despatches, some affirming they contained accounts of a filibuster expedition, whilst it is more generally believed, the fact of the United States ships Jamestown and Princeten having been engaged in exercising their crows at gunnery practice some of the blooks at Key West keateared the Spanish Consult to convey the Important intelligence to the Captain General, who was all the superior authorities mear this city, at which my palace friend informs me it was resolved ten theories of the brown and sould be at once ordered to be made. The United States steamer, San Jac'nto, with Commodere McCauley, steamed allowly out of this harbor on Wecheesday meraing last. 2d inst. To the question, what was the object of her visit? "the answer here is quien sade. Her others are a pleasant, gestlemanly set of follows, and we shall always be glad to welcome them amonget us. By the Gaceta of the 4th inst., wa learn that Den Jose Mannel Parras, (who, I believa, is a merchant doing business in Pullsdelbhia,) Don Augustin Lapiedra and the Doncella Reits Berlin, are accused of infidencia (treason) They are summoned in the customary form to appear, their readences being uninown. The Doncella Berlin, is the sister of the two gentlemen of the same name who were recently discharged from the Penton, the oach having been banished, whithit the other, if I mistake not, is permitted to regan in this city. Everything is reported to be in a state of quisaconce in Mexice, a cessation of heatilities between the troops of Alvarez and those of his Serene Highness, Santa Anna, having taken place. The steamer Santa Anna cemes here, I learn, to undergo some necessary but trilling repairs to bee machinery.

I have this instant had an interview with my "palace triend." He tells me it has been determined not to permit Colonis Kinney to enter this harber with his Nicanagua coloniaus. It would not surprise me if eventually the entire party from Nicaragua were to make a descent apon this island.

Probability of the Release of Mr. Filix—Return of the Lieut. Governor of Sagua la Grande to his Post with the Bene Merito of Gen. Concha—Arrival of Another

Baich of Santa Anna's Indian Slaves.

The delay of the Granada in arrival at this port caused a good deal of confusion in the correspondence induced by our general commercial interests; as when the hour arrived for closing the mail bags for the Isabel, it was guess work as to where to drop the letters. Those who mailed their packages late the previous evening or early the morning of the 10th, for New York via Charleston, could not find a remedy for the error after they had learned the arrival of the cirect opportunity, either through the intelligence or the courtesy of the agents, by permitting a clerk of the house to assert the letters of the laabel's bags, taking out those for New York, which might have occupied fifteen minutes. If the mails for the United States could be made up in the office of the

If Mr. Felix is released, of which I learn there is some probability, it will ust be owing to the efforts made by the Marcy administration, but through influences of a very different character and locality. The fact that it may disarm our naval dyslomate of some of their reliable arguments if they are to have any discussion with General Concha, facilitates the opening for this measure of mercy, which I am informed has been taken advatage of. I hand you with my disa by this steamer the Process.

"On Sunday last returned from this city to Sagus la

Den Jeaquin (asarigo, who possesses so much and such
true sympathy among the inhabitant—a sympathy
which has been legitimately gained during the four years
that he has discharged the dutes of that command by
the shill, prindence and anwearied wal which that gentleman and good Spannarc has displayed. The return of
Sesor Casoriego to Sagus after the time be has remised
in this capital, ought to cause the greatest satisfaction
in that neighborfood, as they began to fear he in ght occomplimented with suctore commend in the island—
the dissinguizhed chief to whom the Saguarian have

This gentleman and true Spaniard has been especially
kind and paternal in his jurisdiction permitting the
introduction of negroes from the coast of Africa, to
meet the labor wants of Saguarian industry ad libitum, but not without pecaniary advantages to himself.
This will probably close the troubles of thomoson, and
shut out from inquiry on the part of the United Sta es
the intended ind gnity offered to it in the violance used
to their acting agent, and in the centruction of the
arms of the ration exposed in his office. "It was of

which the government of the United States has no right
to tuttefere.

It was not our intent on to take any molice of the false statements, which is late appeared is some newspapers against our community, bring well aware that a refutation of the same will not be efficient to extripate the entry, jealousy, and the deep emity against the religion of Jesus, which such attacks have for their origin; and did these slanders concern that ourselves, we would still continue to suffer them estantly, according to the dozinine to suffer them estantly, according to the dozinine and example of our Lord and Saviour Jesus Christ; but they do also concern the glory of God, and the housest misses of the puble, who may have been prejudiced thereby, and therefore we consider it our duty to place publicly the truth against falsenced, for the candia perusul of all who dosi to know the racts.

We form a Christian community, which has existed for a great many years in Germany, consisting of members who have united themselves for the sole purpose to serve God according to the dictares of their own consciences. Our religious principles are the doctrines of the hely Scriptures in the Old and New Testa meass, and compare themselves nearest to know of the quadrate or "Friends" in this country.

We do not deem ourselves to be "saints." We are all sinners, and come short of the glory of God; but do not therefore patronize and defend sin, but condems the same in ourselves, and strive to attain to the puridistics from sin through the power of the redemption made by Jesus Christ, the Soa of God, through his cloud for the salvation of our souls.

And this purpose is the sole bond binding us together in the grace of our calling from God, through his cloud for the salvation of our souls.

We are not subject to the will of man, but subject only by our own ree will to the obselence of faith in the truth, which Christ has established in his Church.

There is nei

At the same time an act to incorporate the village of Ebaseese was also granted us, for the scale transaction of our civil affairs.

"The Ebenesee Society" has no corporate existence. This name has been adopted by us simply in place of an individual mercantile form, to transact more conveniently our business under the same. Before the law we stand in the same position as any other citizes or single family beyond us.

The religious denomination of the society is "The Community or True Inspiration."

A religious fund is also owned by this community for building and maintaing school and meeting houses, a printing press and blarry, and for the relief of the pror, amounting is all to thirty thousand dollars, mostly invested in bonds and mortgages, and which comprise at the rich, equally interested in the community. Under an organization, as ours in our and allowances, instead of wages, are paid out to the members of such association, as they are all, the poor as well as the rich, equally interested in the common income, and stand on equal footing in all things, without any invitious distinction. Any one that becomes distant field, has the right to leave, and is settled to receive back what he has put into the common stock. He has in such cases no legal claim to more than his deposit, but an equitable one, according to our constitution, which has never been disregarded.
